PROFESSIONAL SUMMARY

MCA student and software developer with hands-on experience contributing to real-time healthcare applications and web-based systems. Experienced in frontend, backend, database integration, API-driven development, debugging and production-oriented feature implementation. Contributed to Doctor Healix, a healthcare management platform, across multiple web application and backend workflows. Strong academic record with a 9.66 MCA CGPA and 9.04 B.Sc. Computer Science CGPA.

TECHNICAL SKILLS

Languages	JavaScript, TypeScript, Java, Python, C++, HTML, CSS, PHP
Frontend	React, JavaScript, HTML, CSS
Backend	Bun, Elysia, PHP, REST APIs, GraphQL
Databases	PostgreSQL, MongoDB, SQLite
ORM / Tools	Drizzle ORM, Git, GitHub, Postman
Concepts	Full-Stack Development, API Development, Database Integration, Authentication, Debugging

PROFESSIONAL EXPERIENCE

Software Developer / Project Team Lead — Edmond Remedies Pvt. Ltd. (Doctor Healix) (Jan 2026 – Present)

- Contributed to the development and maintenance of Doctor Healix, a healthcare and pharmacy management platform.
- Worked across web applications, backend services, admin dashboards and healthcare-related workflows.
- Contributed to patient, doctor, pharmacy, laboratory, subscription, payment and reporting-related features.
- Implemented and integrated features across frontend, backend and database layers, including API and business-logic changes.
- Worked with TypeScript, JavaScript, React, Bun/Elysia, PostgreSQL, Drizzle ORM, GraphQL and Git.
- Debugged production issues, implemented enhancements and supported deployment of real-time application features.
- Led and coordinated project work as Team Lead and contributed to successful real-time deployment with 500+ installations.

Project Intern — Mavepizon Technologies (Aug 2025)

- Worked on a real-time Natural Language Processing project, contributing to model development and implementation.
- Selected as a project intern based on performance and technical skills.

PHP Backend Development Intern — Features Software Company, Nagercoil (Jan 2025)

- Contributed to backend modules of a live project, gaining hands-on experience in PHP, database integration and server-side logic.

Machine Learning Intern — Features Software Company, Nagercoil (Jun 2025)

- Worked with ML algorithms for real-world datasets, focusing on model training, evaluation and optimization.

KEY PROJECTS

Doctor Healix — Healthcare Management Platform

Contributed to real-world healthcare software involving patient, doctor, pharmacy, laboratory, subscription, payment, reporting and administrative workflows across web and backend systems.

Smart Attendance System using RFID

Designed and implemented an automated attendance system using RFID technology to record student attendance in real time, reducing manual errors and improving efficiency.

Natural Language Processing Project

Contributed to model development and implementation as part of a real-time NLP project.

EDUCATION

MCA — Master of Computer Applications | Rohini College of Engineering and Technology, Palkulam | 2024–2026 | **CGPA: 9.66 (Present)**

B.Sc. Computer Science | S.A.V. Sahaya Thai Arts & Science (Women) College, Vadakkankulam | 2021–2024 | **CGPA: 9.04**

ACHIEVEMENTS

- University Rank Holder — Secured 10th Rank in UG Major with a CGPA of 9.04.

- Academic Topper in MCA (Present).
- Represented India as a Kabaddi Player (2023) — 1 National Certificate and 3 university-level tournament certificates.
- Paper Presentation — “Artificial Intelligence and Chatbots,” Noorul Islam College, Nagercoil.
- Selected for Placement Training Program at the Collector Office, 2025.
